## MULTIFILTER

It is the only helmet on the market that lays all and exclusively on the shoulders by means of an anatomical breastplate so perfectly balanced. The head inside the helmet, has complete freedom of movement. The panoramic visor allows an exceptional wide vision. It is in compliance with EN 12941.

### Models:

- **SUPER 1001**  
Powered from rechargeable batteries (integrated with cable 6V tractor)
- **STANDARD 1003**  
Tractor battery power (integrated with rechargeable battery)
- **STANDARD 1103**  
Tractor battery power 12V

## POWERCAP

**The Powercap Active IP** is designed for protection against dust particles and airborne contaminants; ideal for working in dusty environments such as, carpentry, farms, food industries etc. It complies with EN 12949 THCP1.

- **Electrofiltrant group:** the filtered air flow produced by the group (160 l / m) to a fresh and comfortable feeling that eliminates any respiratory effort and prevents fogging of the visor
- **Impact protection:** Complies with EN 166 1B. It protects the head and eyes even from side impacts
- **Autonomy:** 8 hours, 10 hours of charging

## AGROFILTER

Ventilated integral helmet with openable visor, weight is distributed in the belt allowing a high comfort. It is equipped with a functional sun visor that protects from sunlight and from accidental drops. Particularly recommended for vineyards.

### Models:

- **SUPER 2001**  
Supply rechargeable battery  
(Integrated with cable 6V tractor)
- **STANDARD 2003**  
Tractor battery power 6V  
(Integrated with rechargeable battery)
- **STANDARD 2203**  
Tractor battery power 12V

## AIRFILTER

**Air Filter** is an innovative respirator for protection from dust and gas. Designed to let your shoulders free and be able to open wear equipment such as small atomizers, pumps, etc. It is equipped with a turbine which draws the air through filters and conveys on avoiding visor fogging. The continuous airflow creates a positive pressure that eliminates any respiratory effort and it prevents the entry of contaminated air. Especially recommended in the greenhouses.

## Disposable Protective Coveralls

### 1800 Standard (White)

Coverall with hood, cuffs, waist and ankles elasticized. front zip with double slider cover resealable zipper. quilted seams and broadsides. EC Category III, Protection 5/6 making more breathable the 2000 model. Recommended for warmer periods
